Sunday, September 23, 2018

9:00 AM - 12:00 PM	**EXPO COMPANY SETUP VENDOR HALL (No Admittance to Vendor Hall)** (Grand Sierra F, G, H & I) Gulf Coast Expo will setup all sponsor booths during this time, no admittance during this period.

Meeting

2:00 PM - 6:00 PM	**FAEDS BOARD MEETING** (Curacao 5 & 6) FAEDS Board Meeting
2:00 PM - 6:00 PM	**FCITL BOARD MEETING** (Curacao 7 & 8) FCITL Board Meeting

Event for All

2:00 PM - 6:00 PM	**REGISTRATION AND INFORMATION DESK** **Grand Sierra Registration NORTH**

Sponsors Only

2:00 PM - 6:00 PM	**VENDORS SET-UP** (Grand Sierra F, G, H & I) Sponsors please set up your booth during this period.

Monday, September 24, 2018

Event for All

7:30 AM - 8:20 AM	**MONDAY CONTINENTAL BREAKFAST** (Grand Sierra F, G, H & I) Continental Breakfast **Sponsored By Our Contributing Sponsors: CDW-G, ClassLink, ContentKeeper, Education Networks of America, FileWave, Focus School Software, Hayes, HP, Identity Automation, Microsoft, PCS, Presidio, Smart, UDT, Verteks, VMWare**
7:30 AM - 4:30 PM	**REGISTRATION AND INFORMATION DESK** **Grand Sierra Registration NORTH**
7:30 AM - 6:00 PM	**VENDOR HALL OPEN** (Grand Sierra F, G, H & I) Please support our sponsors and visit Vendor Hall

Meeting

8:30 AM - 11:20 AM	**FCITL MEETING** (Curacao 7 & 8) FCTIL Meeting
8:30 AM - 9:20 AM	**PREMIER MEETING** (Curacao 3) Please schedule with Judy Hamm - Vendor Coordinator/Conference Planner. Locate Judy at the Grand Sierra Registration NORTH

Breakout Sessions

8:30 AM - 9:20 AM	**ACCESS 4 LEARNING COMMUNITY AND CAMBRIDGE PUBLIC SCHOOLS** (Curacao 2) **HOW STANDARDIZING INDIVIDUAL EDUCATION PLANS CAN FREE YOUR TIME AND RESOURCES.** IEPs are critical for learners and the practitioners who provide their learning opportunities including parents—and it is the law. Three years ago, the Access 4 Learning (A4L) community undertook the challenge to gather experts in IEP development and usage and link them to IEP application vendors to create a standardized IEP that could address some IEP challenges: • Learner mobility and IEP information moving with them • Challenges in creation and the presentation of information from numerous sources, plus current paper and pencil dependence • Changing from one system to another and proprietary "hooks" in applications The technical blueprint is now freely available for end users to demand from the IEP products they purchase, and for software developers to build. Technology tools on the market today should support this critical, yet complicated process. Demanding a standardized approach to IEP tools can empower end users and enable marketplace creativity. Most importantly, supporting these youngest learners is critical for all of us. **Presenter:** Larry Fruth

Co-Presenter: Steve Smith

8:30 AM - 9:20 AM	**BREAKOUT SESSION** (Curacao 4)

8:30 AM - 9:20 AM	**PRESIDIO - CONTRIBUTING SPONSOR** (Curacao 1)

HPE VIDEO ANALYTICS AND WARNING SYSTEM

The mega trends of Internet of Things (IOT), computing at the edge, mobility, Big Data, and security are fueling a solution to address today's needs now. Today, more than ever we need to protect our most vital natural resource, our children. IT needs to lead this change, capitalizing on bold new technologies that will enable your schools to become more secure and provide lifesaving measures when seconds count. HPE Edge Video Analytics and Warning System, ties into your existing video management systems (VMS) to provide rich deep analytics on your streams of video at the source to provide fast actionable alerts onsite. HPE Edge Video Analytics and Warning System delivers: Facial and object recognition, analyzing facial characteristic, and body composition to identify and distinguish between authorized and unauthorized people with in the schools perimeter, deep object analysis within seconds if a person is carrying a weapons or a cell phone. Empowering school administration or law enforcement officers to make actionable decisions based on push notifications, push notifications are sent to a terminal or mobile device as well as e911 dispatch, with detail still and streaming video of the alert along with an auto generated event report. Once received and verified and alert and lockdown systems can be activated. Compatible and ease of use, Compatible with all Video Management Systems (VMS) and facilities systems as well as your existing IT infrastructure.

Presenter: George Riemer

Co-Presenter: Jerry Baggett

8:30 AM - 9:20 AM	**SEMINOLE COUNTY SCHOOLS** (Curacao 5 & 6)

BRINGING DEPARTMENT GAPS TO PROTECT OUR STUDENTS AND TEACHERS ONLINE

In the digital culture, online and offline worlds intersect across all areas of our lives. For students, this means what happens at school appears online, and what happens online appears at school. To achieve and maintain safety, educators must work together to protect students as they navigate learning in 21st century environments. At Seminole County Public Schools, key district leaders create bridged relationships across departments to focus on educator learning, including digital safety. Session attendees will learn tactics for breaking down silos created by traditional roles within district staffing models. Attendees will leave with valuable strategies to strengthen our greatest system vulnerabilities, our end users, through professional learning targeting phishing, cyber security, and data privacy.

Presenter: Ryan Peetz

Meeting

9:30 AM - 10:20 AM	**PREMIER MEETING** (Curacao 2)

Please schedule with Judy Hamm - Vendor Coordinator/Conference Planner. Locate Judy at the Grand Sierra Registration NORTH

Breakout Sessions

9:30 AM - 10:20 AM	**BREAKOUT SESSION** (Curacao 3)

9:30 AM - 10:20 AM	**HAYES - CONTRIBUTING SPONSOR** (Curacao 4)

CYBER-DEFENSE, SECURITY POSTURE, RANSOMWARE, AND ALL THINGS CYBER-SECURITY

No matter where you turn, cyber-defense, security posture, ransomware, and all things cyber-security are in the news – for good reason. You may have heard that a traditional security model is like an M&M - a crisp outer shell but a soft inside. Solutions that provide the ability to make part of the inner core as it relates to backup and recovery far more robust and hardened, become the final defense…Call it the inner jawbreaker that's needed to provide defense in depth. Encryption. Everywhere. Are you able to encrypt your data at all points? Immutability - Period. Does your current backup and recovery system offer it? Data Archive - Meet Data Governance. Does your solution provide native and seamless integration with public or private cloud targets for long term retention? Is it far faster and more reliable than recalling tapes from offsite storage? You have three core postures to protect critical data assets and continued operations: Prevent, Contain and Recover. A comprehensive security posture should protect your environment from cyber-attacks and when that fails, you should be able to contain or limit the spread…And when all else fails, you must be able to recover to a reasonable point in time and within an acceptable number of minutes or hours.

Presenter: Drew Hutton

Co-Presenter: Danielle Alvarez

9:30 AM - 10:20 AM	**MICROSOFT CORPORATION - CONTRIBUTING SPONSOR** (Curacao 1)

IT'S ALL ABOUT THE DATA: IMPROVING STUDENT SUCCESS THROUGH ANALYTICS.

Everything that happens in the world around us produces incredibly rich data that can help us create new experiences, new efficiencies, new models and even new inventions. It is this data that is now the key strategic asset regardless of being in retail, healthcare, or education.

Leveraging your data can be the differentiator for your students, classroom, school, district, or university. However, while data is pervasive, actionable intelligence from data is elusive. In this session, we will discuss how Microsoft is partnering with school districts and institutions across the country to improve student outcomes by enabling educators to more easily uncover the insights locked within their data. By the end of this session you'll have a better understanding of how you can begin to more effectively leverage your data to improve student outcomes.

Presenter: Charles Norburn

Co-Presenter: Dustin Ryan

9:30 AM - 10:20 AM	**OKALOOSA COUNTY SCHOOLS** (Curacao 5 & 6)

PUBLIC RECORDS REQUEST MANAGEMENT
This is a presentation on the management of public records requests. The Okaloosa County School District has had over 200 requests since the start of the 2018 school year. This is a presentation on how we managed that volume both poorly and how we took steps to manage the volume correctly. This will cover basic laws, lawyers, redaction techniques, new tools, and policy. Take this opportunity to learn from my mistakes and how having a great team can protect the process.

Presenter: Eric Mitchell

Event for All

Breakout Sessions

10:35 AM - 11:25 AM	**CAMBRIDGE PUBLIC SCHOOLS AND ACCESS 4 LEARNING COMMUNITY** (Curacao 2)

THE FL STUDENT DATA PRIVACY ALLIANCE AND WHAT IT CAN MEAN TO YOUR WORK - RIGHT NOW!
The FL Student Data Privacy Alliance and What it Can Mean to Your Work – Right Now! Come learn how districts are leveraging the power of alliances and consortium to address student data privacy concerns in an online world. We will discuss and demonstrate how the Student Data Privacy Consortium (SDPC) can enables districts in Florida to address operational issues around managing student data privacy in their schools. Operational privacy issues can impede innovative and transformative practices in the classroom. Streamlining best practices and affecting the marketplace s through large alliances of districts and vendors can greatly improve any district's ability to support innovative and flexible learning tools in the classroom. The SDPC is now comprised of 16 + states, thousands of districts, and many vendors. Come learn how the SDPC is improving student privacy operations in leading districts across the country. Come learn how this tool, provided and sponsored by the FL DOE, can help you in your district.

Presenter: Steve Smith

Co-Presenter: Larry Fruth

10:35 AM - 11:25 AM	**HILLSBOROUGH COMMUNITY COLLEGE** (Curacao 5 & 6)

IDENTIFYING, CLASSIFYING AND SECURING YOUR DATA IN OFFICE 365
Metadata classification has been at the forefront of organizing, managing and possibly securing your data in any organization. Over the last few years with the advent of office 365 Labeling system, classifying data has never being easier. Developing, and applying a consistent set of labels based on datatypes across multiple services – OneDrive, Exchange and SharePoint in particular- is paramount to the success of data classification and security. This is in great part because divergent data types require separation and classification often driven by the compliance mandated in an organization. Organizational policies may require detected data to be retained, or classified longer than a period of time (7 years) or me be required to maintain the data intact and without modification. Office 365 allows said data to co-exist in diverse places such as OneDrive, SharePoint, and even mailboxes, thus, policies can be developed to encompass all these different data requirements. In This lecture we will explore the different manners in which we can meta-tag, classify and secure data in the Microsoft cloud.

Presenter: Kenneth Compres

10:35 AM - 11:25 AM	**VERTEKS CONSULTING - CONTRIBUTING SPONSOR** (Curacao 1)

EMERGENCY MANAGEMENT RESPONSE PLANNING. KEEP EVERYONE INFORMED BEFORE, DURING AND AFTER ANY EVENT.
Over 55 million elementary and secondary school students trust our educational institutions to provide a safe and secure learning environment. One of the most critical systems for any

school or business to have is a powerful Emergency Notification System. Preparation, planning, and communication is the key to any emergency. Designed for the campus' and other distributed environments, Emergency Notification system allows you to: • Meet first responders by alerting office staff when an emergency has occurred • Page key staff in the event of a medical, security or other emergencies that requires a rapid response • Page alerts to an entire building to announce lockdowns or predefined codes • Perform screen pop notifications on computers across the whole organization for those that might be out of earshot Why should you attend? • Walk away with actionable ideas to improve school safety • Gain a better understanding of School Response to Active Threats • Learn how to save money by maximizing your investments in technology

Presenter: Don Gulling

Co-Presenter: John Childers

10:35 AM - 11:25 AM	**VMWARE - CONTRIBUTING SPONSOR** (Curacao 4)

EMPOWER THE DIGITAL WORKSPACE FOR PRIMARY AND SECONDARY SCHOOLS.
Focus on the technology that is critical to engaging students, while accommodating unprecedented change in education practices. Learn how the VMware Digital Backpack for Education delivers any application to any device, 1:1 and BYOD, allowing for better alignment between digital content and a student's needs

Presenter: Jim Valveri

Co-Presenter: Perry Bright

Event for All

11:30 AM - 1:00 PM	**MONDAY LUNCH and APPLE EDUCATION KEYNOTE MIKE HOFHERR - VP &CIO OHIO STATE UNIVERSITY** (Grand Sierra E)

Lunch and APPLE EDUCATION Keynote Speaker - Mike Hofherr - VP & CIO Ohio State University

Learn Forward
Mike Hofherr, Vice President and Chief Information Officer, discusses the changing face of employment; the role technology plays in career readiness and how The Ohio State University has grown as a connected campus to address the needs of faculty and students. Digital Flagship is Ohio State's initiative to expand digital literacy, increase access to coding skill-building and cultivate an App development community. Through Digital Flagship, the university is not only achieving the core goals of the initiative but is able to push other goals, such as access and affordability, faster to achieve even more impactful results.

Keynote Speaker: Mike Hofherr

Meeting

1:15 PM - 4:20 PM	**College CIO Meeting** (Curacao 7 & 8)

College CIO Meeting

1:15 PM - 2:05 PM	**PREMIER MEETING** (Curacao 4)

Jeffery Pepper

1:15 PM - 2:05 PM

HARDEE COUNTY SCHOOL DISTRICT (Curacao 2)

BIG IDEAS FOR LITTLE LEARNERS

Apps and websites for elementary teachers to use in the classroom. Ideas to incorporate technology into whole group, independent and collaborative work in the elementary setting.

Presenter: Donna Roberts

1:15 PM - 2:05 PM

THIS SESSION HAS BEEN CANCELLED - NWRDC (Curacao 3)

DEVELOPING AN EFFECTIVE RISK MANAGEMENT PROGRAM

Tim Brown will discuss the development of a risk management program at Northwest Regional Data Center (NWRDC), an IT service organization consisting of 60 employees serving the educational, government, and non-profit sectors in Florida. Topics discussed will include risk identification and sources for risk information, risk assessment, risk treatment, follow-up and tracking of risk mitigation and internal control enhancements, governance, and risk acceptance.

Presenter: Tim Brown

2:15 PM - 3:05 PM

FOCUS SCHOOL SOFTWARE - CONTRIBUTING SPONSOR (Curacao 4)

INTEGRATING CURRICULUM TOOLS, LIKE SCHOOLOGY, INTO THE FOCUS TEACHER PORTAL

This session will explore the options teachers using the Focus gradebook have with curriculum vendors and educational tools supported by OneRoster. Teacher assignments are no longer isolated to the content presented in the classroom. Assignments and resulting scores are integrated with online textbooks, Schoology, Microsoft Classroom, All in Learning, Canvas and more. Focus makes the a direct connect from within the gradebook to these third parties so the students, parents and teachers have on central location for viewing the student data.

Presenter: Bethany Helslam

2:15 PM - 3:05 PM

LEON COUNTY SCHOOLS (Curacao 5 & 6)

ANATOMY OF A DATA BREACH: LESSONS LEARNED

This presentation will discuss the data breach by a third party provider (FLVS) and the lessons that were learned as Leon County responded to the breach. The presentation will include the discovery of the breach, our incident response, working with our cyber security insurance provider, lessons learned along the way, and reporting requirements of Florida Statute 501.171.

Presenter: Bill Nimmons

2:15 PM - 3:05 PM

MARTIN COUNTY SCHOOL DISTRICT (Curacao 2)

STUDENTS SUPPORTING SCHOOLS (S3) PROGRAM

The (S3) program is a student enterprise that enhances educational experiences by providing IT and customer support opportunities. Given the proliferation of devices that an Educational Technology Department is responsible for supporting, high school students are recruited, hired, and trained--as part-time employees--to augment Martin County schools by providing Level 1 technical support. The highly successful program is in its fifth year, and it has been featured in the media both locally and regionally. The presentation proffers attendees general information, as well as a "road map" for implementing.

Presenter: Mark Malham

Co-Presenter: Priscilla McAdams

2:15 PM - 3:05 PM

OKEECHOBEE COUNTY SCHOOLS (Curacao 3)

1:1 - FIVE YEARS IN

We started our 1:1journey five years ago and will discuss where we currently are, what we have seen work and the lessons learned.

Presenter: Shawna May

Co-Presenter: Jessica Lowe

2:15 PM - 3:05 PM

THIS SESSION HAS BEEN CANCELLED - EMTEC, INC. - PREMIER SPONSOR (Curacao 1)

ARTIFICIAL INTELLIGENCE, MACHINE LEARNING AND COGNITIVE COMPUTING - SEPARATING FACTS FROM FICTION - IMPLICATIONS FOR EDUCATIONAL INSTITUTIONS.

This presentation will focus on how organizations can use AI technologies, such as Robotic Process Automation (RPA) to improve operational performance and efficiency today. We will

also discuss how AI is influencing the direction of growth, what to expect going forward and how you can start on your journey to AI. We will provide a pragmatic approach (hint, it's not all about technology!)

THE EVOLUTION OF WEB FILTERING - STOP BLOCKING ACCESS TO VALUABLE EDUCATIONAL CONTENT

The rapid growth of mobile devices and SSL encrypted traffic is causing significant challenges for district IT administrators. Schools must allow access to online educational content, both on and off campus, but must also provide a safe and secure learning environment. Many web filtering solutions do not offer scalable gateway deployments that provides centralized management and intelligent SSL inspection and controls across all browsers and platforms, forcing IT staff to over-block access to valuable content. Learn how The School District of Osceola County has overcome these challenges and provides safe access to educational content with best practices and advanced filtering technology for their multi-gig network.

Presenter: Robert Curran

Co-Presenter: Russell Holmes,
                       Jason Green

3:30 PM - 4:20 PM   **ESCAMBIA SCHOOL DISTRICT** (Curacao 2)

INTEROPERABILITY OF DIGITAL TOOLS ROUND TABLE

Were you ready to provide digital learning content and tools on the first day of school this year? Are you using OneRoster, Learning Tools Interoperability, Thin Common Cartridge, or some other interoperability standard to provision your digital tools and get them to work together? If so, bring a success and a challenge to share with the group. If not, come see how use of interoperability standards may improve your start of school experience.

Presenter: Tom Ingram

3:30 PM - 4:20 PM   **MARTIN COUNTY SCHOOL DISTRICT** (Curacao 3)

DIGITAL SKILLS FOR LITTLES

Our students come to us with the expectation of learning. Often, this means reading, writing, math, science, and social studies. In this day and age we also must consider the digital skills that they will need to be successful. If we are to truly prepare them for education and beyond, we must deliberately teach them the skills necessary to participate in this globally and digitally-minded world. During this session, I will share our district's plan and resources to work towards a digitally savvy and responsible student body and their progress towards earning Digital Tool Certificates.

Presenter: Douglas Konopelko

Co-Presenter: George Vogeley

3:30 PM - 4:20 PM   **UNITED DATA TECHNOLOGIES - CONTRIBUTING SPONSOR** (Curacao 1)

CYBER THREATS, HOW THE FUTURE OF FILTERING HELPS CYBER-SECURITY IN EDUCATION.

Your 1:1 device strategy focuses on ensuring student tech -- no matter what device or OS – it's filtered, managed and empowering learning at school and at home. Are all your devices covered with advanced solutions to keep students on-track and safe, all while saving your school IT department time and money? Our goal is to accomplish more with you to keep you in control of your IT systems for your students and administrators. In this must-attend session with the pros at Lightspeed Systems and UDT, learn about and how to. • Most Current Cybersecurity Threats affecting Education • Add Depth in your Cyber Defense • Augment your IT force with UDT Knowledge and Experience • Identify and Reduce Bandwidth waste • Enhance Student Success by eliminating distractions • Filter and manage any device, any OS, anywhere • Solve SSL decryption easily without proxies, certificates, or PAC files • Provide appropriate, educational access to YouTube without any time-consuming management hassles • Better identify and track high-risk online and offline student behavior • Empower teachers with intelligent classroom management tools • And much more, plus rapid-fire Q&As to ensure you get all your questions answered in this essential FAEDS session

Presenter: Mike Sanchez

Co-Presenter: Brett Baldwin

4:30 PM - 6:00 PM	**MONDAY VENDOR HALL WELCOME RECEPTION** (Grand Sierra F, G, H & I)
	Please support our sponsors and visit Vendor Hall Enjoy light refreshments while you welcome & visit with our vendor/sponsors. Educational attendees, bring your business card to be entered for door prizes. **Sponsored by our Premier Sponsors: Dell EMC, Emtec, Inc., Howard Technology Solutions and Apple Education**

Breakout Sessions

8:30 AM - 9:20 AM	**BROWARD COUNTY PUBLIC SCHOOLS** (Curacao 5 & 6)
	COMMUNICATING & COLLABORATING TOGETHER FOR SUCCESS! Getting all key stakeholders "on the same page" is critical to the successful implementation of any large scale project that leads to student and staff success. The ultimate goal is for our end users "buy in" to the project and feel comfortable with the changes occurring. The presenters will share Broward's approach and strategies to implement change through communicating and collaborating as an inter-connected district and school team. Several current projects will be used as examples such as the Interactive Classroom Initiative, Office 365 roll-out, transition to new district and school web sites and the release of our BCPS staff portal. The technology tools used will be demonstrated.
	Presenter: Jeanine Gendron
	Co-Presenter: Randy Stephen, Julio Gonzalez
8:30 AM - 9:20 AM	**ESCAMBIA COUNTY PUBLIC SCHOOLS** (Curacao 2)
	STUDENT DATA PRIVACY ALLIANCE NEXT STEPS ROUND-TABLE DISCUSSION The FL DOE has supported the forming of a FL Student Data Privacy Alliance by funding the SDPC membership. We now need to begin the creation of our formal Alliance and leverage the power of a state-wide Data Privacy Agreement. Topics will include; Alliance Membership, Roles, FL Model Data Privacy Agreement creation, SDPC Tool Set role out etc. Come be a part in this exciting opportunity for FL Districts to address local student data privacy issues as a consortium.
	Speakers: Tom Ingram
8:30 AM - 9:20 AM	**IDENTITY AUTOMATION - CONTRIBUTING SPONSOR** (Curacao 4)
	"HOW JACKSON COUNTY SCHOOLS ELEVATED THE ROLE OF IT WITH IAM" Digital tools and dynamic content are transforming how students learn—leading to an explosion of systems and thousands user accounts that must be managed by your already stretched IT staff. And, all of this is happening at a time of flat or shrinking budgets. Modern Identity and Access Management (IAM) is the key to enabling school districts to do more with less, while reducing IT costs and increasing IT innovation. Hear firsthand as Jackson County Schools and Identity Automation discuss how the school district leveraged modern IAM to automate identity lifecycle management for all users, accelerate edtech adoption, and provide an enhanced user experience with secure, single sign-on and password management—all from a highly available, cloud-hosted environment.
	Presenter: Elizabeth Walden

Co-Presenter: Tim Till

8:30 AM - 9:20 AM	**PCS - CONTRIBUTING SPONSOR** (Curacao 1) **THE NEXT GENERATION OF WI-FI: 11AX, SOFTWARE-DEFINED NETWORKING AND ACCESS MANAGEMENT.** In the past few years we have witnessed the transition of Wi-Fi as a convenience to the primary access medium. In response, standards are evolving to address the complexities of performance and density and using software-defined architectures to quickly respond to this growing influx of users and devices across the network. In this session, learn about the new 802.11ax standard and how it addresses density, using software-defined technologies such as SD-LAN and SD-WAN to connect people and campuses together faster and less expensive, and controlling how and who can securely access the network using next-generation access management. **Presenter:** Perry Correll **Co-Presenter:** Jim Conte

Breakout Sessions

9:30 AM - 10:20 AM	**FILEWAVE ENDPOINT MANAGEMENT - CONTRIBUTING SPONSOR** (Curacao 1) **SIMPLIFIED ENTERPRISE MANAGEMENT OF WINDOWS, MACOS, IOS, ANDROID, & NOW CHROMEOS DEVICES WITHIN A SINGLE PLATFORM.** FileWave Team will take you through an overview of how FileWave has been simplifying Endpoint Management within Florida and across the Country. Since 1992, FileWave has lead the industry providing education, enterprise, and government institutions around the world with enterprise level, multiplatform systems, and mobile endpoint management software to assist IT teams throughout the lifecycle process of imaging, deployment, management, tracking and maintenance. FileWave's all-inclusive, highly scalable software solves the many challenges of managing a diverse and growing population of users, devices, and content by ensuring IT teams have a comprehensive solution that supports both client (desktop/laptop) and mobile devices across macOS, Windows, iOS, Android, and ChromeOS. **Presenter:** Stephen Mirante **Co-Presenter:** Ben Byers
9:30 AM - 10:20 AM	**MARTIN COUNTY SCHOOL DISTRICT** (Curacao 3) **SUPPORTING TEACHERS WITH TECH INTEGRATION** Join George as he discusses his first year as a Digital Learning Specialist. Discover helpful tips that made him more effective in his role as well as mistakes he made, for you to avoid. Find out George's four biggest realizations of the year are and what that means for how he will move forward. Finally, collaborate and share with peers about what is working for yourself, what issues you are facing, and share solutions with each other. **Speakers:** George Vogeley
9:30 AM - 10:20 AM	**NORTH EAST FLORIDA EDUCATIONAL CONSORTIUM** (Curacao 5 & 6) **MODERN DATA EXCHANGE IN EDUCATION?** Through the use of Ed-Fi's API and Operational Data Store, districts have the opportunity to implement nationally adopted educational data standards and send data transactionally at near real-time speeds. Don't sit in the dark ages of stagnant data any more. The opportunity to implement a modern data exchange is here and available for your school district. Join us to learn more about the technical details that makes data interoperability a reality! **Presenter:** Sherod Keen **Co-Presenter:** Daniel Hornsby
9:30 AM - 10:20 AM	**SMART TECHNOLOGIES - CONTRIBUTING SPONSOR** (Curacao 4) **TRANSFORM YOUR LEARNING ENVIRONMENTS: MOVING FROM VISION TO IMPLEMENTATION** Schools are 342% more likely to achieve success when using teaching best practices and technology frequently*. However, implementing technology without a clear vision and plan often results in little change to teaching and learning. In this session, explore how to work with leadership from multiple departments to build a vision and develop a plan that transforms learning environments and inspires teachers using a variety of tools. Learn how SMART Technologies has partnered with districts as they identify desired learning outcomes, evaluate technology, develop learning environments, and build an implementation plan to achieve success. Additionally, you will review case studies from the SMART Efficacy and Implementation team highlighting successful outcomes from our district partnerships. *According to the Teaching, Technology and Learning: Understanding the Interconnection 2016 Research Study by Filigree Consulting.

10:35 AM - 11:25 AM	**CDW-G - CONTRIBUTING SPONSOR** (Curacao 1)

MOVING FROM INSTINCT TO DATA-DRIVEN DECISIONS TO ENHANCE STUDENT SUCCESS. Whether you are trying to identify students at-risk of falling behind in a course or dropping out of school, or determine the effectiveness of intervention measures, or align the best learning content based on a student's learning style, data is the key to enhancing student success. The challenge many school districts face is that they have dozens of applications housing relevant student data needed to accomplish these tasks. Gathering all of this data manually would be a full-time job leaving no time for actually teaching students. Without a way to get a complete picture of students, a class, a school or a district, many regress to making decisions based on gut instinct. Join us in this session where we will provide an overview of how school districts can automate the integration of student data across multiple disparate data sources. Once the data is consolidated, dashboards and reports can be leveraged to securely provide the right information to teachers, administrators, parents and students when and where they need it. Additionally, predictive models can be utilized to identify at-risk students and alert teachers so proactive interventions can be initiated to help students succeed. We'll explore how technologies from multiple vendors can be used to address these challenges, and criteria you can use to determine which approach is the best for your district.

Presenter: Phil Salm

10:35 AM - 11:25 AM	**CoSN / ESCAMBIA SCHOOL DISTRICT** (Curacao 3)

CoSN MEETING
CoSN (the Consortium for School Networking) is the premier national professional organization for school system technology leaders. CoSN provides thought leadership resources, community, best practices, and advocacy tools to help leaders succeed in the digital transformation. Are you using CoSN resources to the fullest potential? Come share with others how to make the most of your CoSN membership. Not a CoSN member? Then come see the free resources they provide. We will also discuss future topics for quarterly virtual conversations for Florida edtech leaders.

Presenter: Tom Ingram

10:35 AM - 11:25 AM	**FL VIRTUAL CAMPUS** (Curacao 5 & 6)

THE STATE OF HIGH EDUCATION AND DISTANCE LEARNING: OPPORTUNITIES, CHALLENGES AND OUTLOOK
Distance learning is not really a new concept, however the real expansion of this form of educational delivery has really happened within the last twenty years. What is the current status, are there still major challenges ahead and what is the outlook for web-based delivery of educational programs. This session will look at some of the data around the major challenges facing education, how "distance education" fits into that overall picture and some strategies for consideration moving forward.

Presenter: John Opper

10:35 AM - 11:25 AM	**HP - CONTRIBUTING SPONSOR** (Curacao 4)

FROM SILICON VALLEY TO THE CLASSROOM: INNOVATIONS, CHALLENGES AND TURMOIL.
Students take ownership of their learning when learning is relevant, personalized and effective. EdTech realities are no longer an issue just for IT leaders, but for the senior most academia leaders. The right tools, adopted properly can help attract and retain students, helping them to achieve greater results by providing a more immersive and rewarding academic experience. But without leadership and change management to address curriculum and instructional changes, the overall student experience, and even a fresh perspective at security, institutions risk ongoing declining results with the status quo or irreparable harm to their reputation by falling victim to possibly avoidable security breaches. We'll share some of the latest technology innovations certain to impact learning in the future, as well as some today. The session will also examine why many superintendents fail to see academic improvements despite their purchases, as well as some everyday security mistakes leaders make exposing their district to scrutiny. Presenting this session would be Elliott Levine, one of 2018's Top 100 influencers in technology, according to EdTech Digest. Elliott was named the first HP Distinguished Technologist in Education.

Presenter: Elliott Levine

Event for All

11:30 AM - 1:00 PM	**TUESDAY LUNCH AND KEYNOTE ANTHONY SALCITO - MICROSOFT** (Grand Sierra E)

DIGITAL TRANSFORMATION IN EDUCATION
Technology has changed the way we all learn. Our schools and learning environments have greater potential to empower every student to learn at their own pace, in their own way, with insights driving a more personal connection. This session will share how technology will power the future of personalized and predictive learning environments and empower educators and schools to shift the dynamics of the traditional school and classroom. The era of automation is winding down…the time for true transformation is upon us.

Keynote Speaker: Anthony Salcito

Meeting

1:15 PM - 2:05 PM	**PREMIER MEETING** (Curacao 2)

Please schedule with Judy Hamm - Vendor Coordinator/Conference Planner. Locate Judy at the Grand Sierra Registration NORTH

Breakout Sessions

1:15 PM - 2:05 PM	**EDUCATION NETWORKS OF AMERICA - CONTRIBUTING SPONSOR** (Curacao 4)

LEVERAGING YOUR DISTRICT'S DATA TO PRODUCE SUCCESSFUL OUTCOMES
School districts have a plethora of digital resources and tools they are using to enhance instruction, increase efficiencies, and optimize student performance. However, with great power comes great responsibility. The surge of data created by these new tools and devices can be overwhelming and difficult to manage, rendering it difficult for districts to leverage these analytics to their full benefit. Join Jeremy Bunkley, the Director of Information Technology Services at Florida's School District of Clay County as he shares how his team is effectively tracking the tools and applications his students and teachers are using on their devices to optimize and safeguard their learning environments. He'll also discuss how Clay is using technology to make data-informed decisions, identify trends, and inform professional practices.

Presenter: Jeremy Bunkley

Co-Presenter: Oliver Landow

1:15 PM - 2:05 PM	**EDUCATION SUPER HIGHWAY** (Curacao 5 & 6)

PANEL: HOW TO MAKE THE BEST NETWORK PROCUREMENT DECISIONS FOR YOUR SCHOOL DISTRICT.
As K-12 bandwidth needs continue to grow 50% year over year with the adoption of technology in the classroom, the market for broadband services has also been evolving at a quick pace - the median cost per Mbps for Internet access in Florida has dropped by 55% over the past 3 years. The federal E-rate program allows school districts to take advantage of a number of different procurement models, and school districts in Florida have a number of broadband service options available to them. Hear a panel of industry experts weigh in on this topic and answer your questions about network upgrade options for K-12 districts. EducationSuperHighway will moderate the session and provide data on broadband procurement trends. Panel Participants: Joe Fredosso, Mighty River Consulting, former special consultant to USAC Lyell Walker, Florida State E-rate Coordinator Jack Hall, Chief Business Development Officer, Florida LambdaRail Tom Fitzgerald, Brevard County Schools IT Director

Presenter: Jack Lynch

Co-Presenter: Joe Fredosso,

1:15 PM - 2:05 PM	**HOWARD TECHNOLOGY SOLUTIONS - PREMIER SPONSOR** (Curacao 1)

UTILIZING YOUR TECHNOLOGY PARTNER TO ACCOMPLISH GREATNESS.
Howard Technology Solutions would like to educate and discuss the best ways to work with your technology partner(s) to ensure the best results throughout your campus. Tips on technology standardization, negotiations, leveraging of resources and communication will be discussed to help you accomplish your technology goals while meeting your budget. Learn how Howard Technology is revolutionizing the EDU technology partner relationship. Come with your questions for an open Q&A after the presentation.

Presenter: Shana Neely

1:15 PM - 2:05 PM	**PALM BEACH COUNTY SCHOOL DISTRICT** (Curacao 3)

BUILDING CAPACITY-A PHILOSOPHY OF K-12 TECHNOLOGY IMPLEMENTATION
The right technology in the hands of a teacher who lacks the capacity to use it effectively is the wrong technology. This presentation will outline a philosophy of leading classroom technology change with a focus on building teacher ability and setting the stage for the diffusion of innovation within the school.

Presenter: David Atwell

Meeting

2:15 PM - 4:20 PM	**FAMIS Board Meeting** (Curacao 4)
	FAMIS Board Meeting
2:15 PM - 3:05 PM	**PREMIER MEETING** (Curacao 2)

Breakout Sessions

2:15 PM - 3:05 PM	**APPLE EDUCATION - PREMIER SPONSOR** (Curacao 3)
	STUDENT DATA PRIVACY AND SECURITY
	Join Apple for a conversation around student data privacy and security. In this session we will discuss Apple's security approach and demonstrate some of the privacy features of Apple's education solutions. At Apple, we believe privacy is a fundamental human right. We are committed to helping protect all of our users with leading privacy and security technologies that are designed to safeguard personal information.
2:15 PM - 3:05 PM	**CLASSLINK - CONTRIBUTING SPONSOR** (Curacao 1)
	MAKING INTEROPERABILITY A REALITY: HOW OPEN TECH STANDARDS ARE CHANGING THE WAY SCHOOLS AND PUBLISHERS OPERATE.
	One of the unremitting headaches that education technology leaders face is the messy flow of class-roster and account sign-on information between schools and publishers. ClassLink will be joined by leaders from Bay County Schools to discuss the difficulties associated with class rostering in a large district, the modern move to push publishers to accept a standard set of files, and how this has all changed the way schools and publishers operate.
	Presenter: George Perreault
	Co-Presenter: Tamra Hogue
2:15 PM - 3:05 PM	**OKEECHOBEE CO. SCHOOLS** (Curacao 5 & 6)
	1:1 CHROMEBOOKS IN GRADES K-2
	1:1 technology integration can be a scary and time-consuming task for K-2 teachers. This presentation will give some insight on some do's and don't's when introducing 1:1 technology with the younger grade levels. It will include information about programs and resources tailored to the needs of younger students as well as tips on building their responsibility and independence while using it.
	Presenter: Jessica Lowe
